TID Responds to Denair Storm

DENAIR CA – At approximately 2:00 p.m. on Sunday, November 15, 2015 a possible tornado was reported in the town of Denair California. The storm caused damage to transformers, wires, poles and disabled two main power feeders into town. As a result of the storm, power was lost to approximately 1,700 accounts. TID immediately responded to assess the damage and begin the process of restoring power to the affected area.

At After inspecting the system, at approximately 5:00 p.m., TID was able to restore power to the area of Denair west of Gratton Road. The section east of Santa Fe consisting of a few hundred accounts is currently still out of power. TID crews will be moving from account to account reconnecting service on an individual basis once each residence or business is deemed safe. Homes that have experienced damage and cannot be immediately restored, should contact TID Service Division 209-883-8301..

It is TID's primary concern that every resident and all TID crews are kept safe throughout the power restoration process. TID is working as quickly as possible to get the power back on for all customers and appreciate everyone's understanding and cooperation during this storm-related outage.

About the Turlock Irrigation District (TID)

The Turlock Irrigation District, located in Turlock CA, is the first publicly owned Irrigation District and is one of only four today that provides irrigation water and power to residential, commercial, industrial and agricultural customers within its service area. TID has been in the retail electric business since 1923. TID provides safe, low-cost, reliable energy to a growing customer base that today exceeds 98,000 home, farm, business, industrial and municipal accounts. TID also serves 5,800 irrigation customers covering approximately 150,000 acres of farmland. For more information about TID visit www.tid.com and follow [@TurlockID](https://twitter.com/TurlockID) on Twitter.
