

Applicability

This schedule applies to: (1) Domestic service use including lighting, heating, air conditioning, cooking and appliances where a single meter serves a single family dwelling; (2) apartments and multifamily dwelling units where each unit is individually metered by the District; (3) noncommercial or farm uses (except dairy milk barns, poultry houses, and similar type farm uses) with a total connected load of 20 kW or less, where such service is provided in conjunction with a residence on the same property; and (4) where a single meter serves noncommercial or farm uses (except dairy milk barns, poultry houses, and similar type farm uses) on the same property as the residence with a total connected load of 20 kW or less.

Character of Service

Single-phase alternating current will be provided at nominal voltages of 120 or 120/240 volts.

Three-phase alternating current service may be provided to a single-family residence for space conditioning use at nominal voltages of 120/240 or 120/208 volts at the discretion of the District. The additional transformers, for providing three-phase service, will be of standard size and at voltages as designated to be available by the District. A one-time Connection Charge will be billed to the customer to recover the costs of supporting three phase service as provided for in the "Electric Service Schedule of Charges".

Rates

The rates consist of the following Customer and Energy Charges:

	Per Meter Per Month
Customer Charge	\$ 17.00
Energy Charge:	
Winter Billing Months:	
0-700 kWh, per kWh	\$ 0.1016
Over 700 kWh, per kWh	\$ 0.1116
Summer Billing Months:	
0-700 kWh, per kWh	\$ 0.1070
701-1100 kWh, per kWh	\$ 0.1305
Over 1100 kWh, per kWh	\$ 0.1436

Minimum Charge

The minimum charge for each monthly billing period or portion thereof shall be the Customer Charge.

Special Conditions

1. Customer accounts billed under this schedule are subject to additional charges as stated in the Conditions and Surcharges.
2. For customers changing schedules between billing dates, the schedule in effect at the time of the end of the normal billing period will be used to compute the bill.
3. Winter billing months shall be the December through May bills. Summer billing months shall be the June through November bills.
4. For beginning bills where the billing period is less than 10 days, the Minimum Charge will be waived and the Energy Charge will be included in the next billing period.
5. Life-support discount rates for this schedule must meet the criteria in Electric Service Rule 21. The life-support discount is equal to a 50% reduction on the first 500 kWh of usage per month.
6. If applicable, a discount will be applied as outlined in the Residential Service Energy Assistance Program tariff sheet as adopted by the TID Board of Directors.
