

Residential Air Conditioner Replacement Program

You can earn a \$500 TID rebate for replacing your existing air conditioner with a new energy efficient model. You may also be eligible for up to a \$1500 Federal Tax Credit.

Program Requirements

- **New unit must meet minimum system efficiency SEER and EER standards**
- **Both indoor coil (evaporative) and outdoor unit (condenser) must be replaced on a split system**
- **Provide system efficiency documentation certificate from Air Conditioning, Heating and Refrigeration Institute (AHRI)**
- **Provide a copy of finalized building permit**

Minimum System Efficiency Standard				
	Split System		Package System	
	SEER	EER	SEER	EER
Residential Central Air Conditioner	16	13	14	12
Residential Air Source Heat Pump	15	12.5	14	12

Visit www.tid.com for an application and additional program requirements. Program effective through 12/31/10.
