### System

#### EPBI For Systems <30 kW<sub>AC</sub>

CEC-AC System Size (kW) \_\_\_\_\_(A)  
(from www.csi-epbb.com)

Design Factor (ex 0.9943 not 99.43) \_\_\_\_\_(B)  
(from www.csi-epbb.com)

Incentive Rate (\$/W) \_\_\_\_\_(C)

Incentive (A x B x C x 1000) \$ \_\_\_\_\_

System Cost Before Incentive \$ \_\_\_\_\_

#### PBI For Systems ≥30 kW<sub>AC</sub>

CEC-AC System Size (kW) \_\_\_\_\_

Annual kWh \_\_\_\_\_(A)  
(from www.csi-epbb.com)

Incentive Rate (\$/kWh) \_\_\_\_\_(B)

Expected Incentive (A x B x 5 years) \$ \_\_\_\_\_

System Cost Before Incentive \$ \_\_\_\_\_

PMRS Exemption Requested (EPBI Only) Yes  No

System Has Single or Dual-Axis Tracking Yes  No

### Checklist for Other Required Documents

- EPBB Calculator Printout ([www.csi-epbb.com](http://www.csi-epbb.com)) If any system specifications changed from reserved system
- Invoice showing all costs for purchase and installation
- PMRS cost cap exemption documentation (EPBI only) or 5-Year PMRS service contract
- City or County Final Permit Inspection

### Installation Certification (Must be Initialled and Signed by Installer)

- Installation equipment is consistent with the submitted EPBB Printout
- Shading analysis has been performed and accurately reported in the Certificate of Compliance. Attached is shade analysis report (not required for systems with minimal shading)
- Field verification & diagnostic testing protocol has been performed. Modules and all other system components are bolted securely and all wiring connections have been made properly according to the system schematic, manufacturer's instructions and applicable electrical code requirements

#### For Systems With A Single String or Microinverters

Irradiance \_\_\_\_\_ (W/m<sup>2</sup>)  
Temperature \_\_\_\_\_ (F)  
Inverter Output \_\_\_\_\_ (W)

#### For Systems With Multiple Strings

- Polarity of all source circuits is correct
- Open circuit voltages of source circuits have been tested and measured to be within 2% of each other (if multiple strings)
- Short circuit currents have been tested and measured to be within 5% of each other (if multiple strings)

### Warranty

The undersigned declares that the system includes a minimum 10-year warranty provided in combination by the manufacturer and installer to protect the purchaser against defective workmanship, system or component breakdown, or degradation in electrical output of more than ten percent from their originally rated electrical output during the ten-year period. The warranty must cover the solar generating system only, including PV modules (panels) and inverters and tracking mechanisms associated with the solar system and provide for no-cost repair or replacement of the system or system components, including any associated labor during the warranty period.

Additionally, meters must have a one-year warranty to protect against defective workmanship, system or component breakdown, or degradation in electrical output of more than ten percent from their originally rated electrical output during the warranty period. For meters that are integrated into the inverter, the meter warranty period must be 10 years.

### Terms and Conditions

The undersigned declares under penalty of perjury that:

- 1) The purchaser has read and understands the Solar Electric Rebate Program Handbook;
- 2) The information provided to apply for this Solar Electric Rebate is true and correct;
- 3) The above-described generating system is intended primarily to offset part or all of the electrical needs at the site of installation;
- 4) The site of the installation is located within the electric service territory of the Turlock Irrigation District;
- 5) The purchaser understands that program funds are subject to change and not reserved until TID deems the project application complete and the purchaser receives a Solar Reservation Confirmation Notice from TID.
- 6) The purchaser agrees that the selection, purchase, and ownership of the equipment are their sole responsibility. TID makes no representation as to the safety, reliability, and/or efficiency of the equipment selected or components thereof. TID makes no warranty, whether expressed or implied, including warranty of merchantability or fitness for any particular purpose, use, or application of the equipment.
- 7) The purchaser acknowledges receipt of Turlock Irrigation District Electric Service Rule 22 and agrees to comply with its terms. The Customer acknowledges that the TID Board of Directors may amend Rule 22 at any time and the Customer agrees to be bound by all subsequent amendments of this Electric Service Rule while his or her solar facilities are subject to an Interconnection Agreement with TID. **(Customer to INITIAL)** \_\_\_\_\_
- 8) The purchaser acknowledges receipt of TID's NET rate schedule and wishes to be placed on this rate schedule upon completion and approval of his or her solar installation. All TID rate schedules are subject to change.
- 9) The purchaser acknowledges that by accepting a Solar Incentive Payment from TID, the purchaser agrees that TID may count 100% of the Renewable Energy Credits (RECs) and associated renewable attributes generated by the PV system for reporting purposes.
- 10) The purchaser agrees to allow Turlock Irrigation District to use images of the solar installation for promotional purposes **(Customer to INITIAL)** \_\_\_\_\_

### Tax Liability

You are urged to consult your tax advisor concerning the taxability of rebates. Turlock Irrigation District is not responsible for any taxes that may be imposed as a result of your receipt of this rebate.
