**ANNOUNCEMENT:  
 UPDATE TO TID'S  
 CARES PROGRAM**

TID is committed to providing payment assistance programs to support our customers' needs. Visit [TID.org/CARES](https://www.tid.org/CARES) to view the new qualifying income guidelines and submit your online application to get assistance today.

Find information on all of TID's payment assistance programs at [TID.org/paymentassistance](https://www.tid.org/paymentassistance) or call Customer Service at (209) 883-8222.

**TID CELEBRATES 135 YEARS**

TID has been a proud provider of essential services to its customer-owners for 135 years. Established in 1887 by hard working and forward thinking residents, TID, still community-owned, continues to enhance its practices and programs to support its customers and communities into the future.

**TURLOCK IRRIGATION DISTRICT SELECTED  
 TO PILOT FIRST-IN-THE-NATION WATER-ENERGY NEXUS PROJECT INVOLVING  
 SOLAR PANELS OVER CANALS**

*Ground to break this fall, providing proof of concept for University of California academic study; energy storage to be incorporated*

TID announced Project Nexus, a pilot project to build solar panel canopies over a portion of TID's existing canals to operate and research a truly innovative, multi-benefit, water-energy nexus project that can further California's push toward water and climate resiliency.

Project Nexus, a public-private-academic partnership among TID, the Department of Water Resources, Solar AquaGrid, and the University of California, Merced, could contribute to a more water resilient future for California and position TID to meet the State's ambitious clean energy goals. For more information, visit [TID.org/projectnexus](https://www.tid.org/projectnexus).

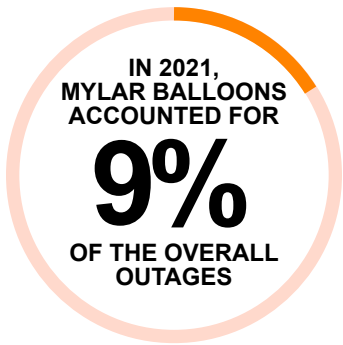

## Don't let Mylar balloons ruin your celebration

Each year, Mylar or metallic balloons get tangled in overhead power lines causing power outages, resulting in dangerous risks to public safety.

Keep your celebration safe and remember to weigh down your balloons. After your celebration ends, cut or pop balloons before putting them in the trash to prevent them from flying away. Or consider celebrating with safer, more eco-friendly alternatives like bubbles, banners and streamers.

If you see a Mylar balloon that has contacted a power line, keep yourself and others safe by staying away and report it by calling TID at 209-883-8301.
