

POWERING OUR COMMUNITIES

As a trusted community partner, TID recognizes that we can accomplish more when we work together. In recognition of this, TID has established the “Powering Our Communities” Program. “Powering Our Communities” is a grant-type program available to organizations in the TID service area that aims to provide financial support for energy efficiency projects benefiting the community. TID is calling upon our municipal partners, county partners, and school districts to identify projects that meet the criteria outlined below. We look forward to partnering with you to make energy efficient improvements that make our community an even better place to live, work and play.

ELIGIBLE ENTITIES: Municipalities, Counties, and School Districts

ELIGIBLE PROJECT EXAMPLES

- Lighting projects in low income neighborhood/parks
- Lighting in a venue that serves the community
- Upgrading pool pump for community pool
- Lighting in community-use sports complexes
- Street lighting that improves public safety

PROJECT OBJECTIVES

All projects will be reviewed and are intended to meet the following criteria:

- Projects benefiting the underserved
- Safety
- Recreation

AWARD VALUE

The value awarded will be calculated based on energy efficiency savings over the lifecycle of the project, not to exceed 50% of the project cost associated with the energy efficiency project (labor included). If the project is under \$20,000, TID has the discretion to pay up to the full project cost.

ADDITIONAL INFORMATION

- Funds not eligible for past or completed projects.
- Payment - Customer will receive payment once project has been completed and is able to provide copies of paid receipts showing the project cost of the installed measure.

Recognition of Partnership – In return for funding, awarded organizations or agencies will recognize the partnership with some manner of public acknowledgment; i.e. permanent signage, social media recognition, etc. Opportunities for recognition of TID support will be mutually agreed upon as part of the overall grant agreement.

APPLICATION

Complete application and return to TID
with supplemental documentation.

Mail to:
Powering Our Communities,
PO Box 949 Turlock, CA, 95380

Email to:
EnergyServices@TID.org

APPLICANT INFORMATION

ORGANIZATION/AGENCY:

CONTACT NAME:

PROJECT NAME:

MAILING ADDRESS:

PROJECT LOCATION ADDRESS:

EMAIL ADDRESS:

PHONE NUMBER:

TID ACCOUNT NUMBER:

TOTAL ESTIMATED COST OF PROJECT(Labor Included):

Please indicate how your project contributes to the areas below. (Check and explain for all that apply.)

Under-Served Population:

Recreation:

Safety:

DESCRIPTION OF PROGRAM:

With this completed application, submit a thorough description of your project, including the objectives and goals, who the project benefits, the community needs the project will address and the impact to the community (including estimated number of people who will benefit). Please also address how you will measure the success of the project and include a timeline or project schedule.

KW - kWh PROJECTIONS:

Provide us your estimated kWh savings and submit supporting documentation. If you are unable to calculate the estimated savings, complete the table below.

# of Existing Fixtures/Units	Wattage	Operating Hours	# of Proposed Fixtures/Units	Wattage
