Join TID’s EnergySync – A demand response program

A small adjustment of your smart thermostat can make a big difference. EnergySync, TID’s demand response program, is available to all customers who have an eligible smart thermostat. Customers can opt-in and receive a one-time \$50 incentive for enrolling and \$25 for participation at the end of each season*.

When you enroll in EnergySync you help reduce electrical consumption by allowing your thermostat to be adjusted slightly during a high energy demand event.

Don’t have a smart thermostat? You can replace your old thermostat with an Energy Star® certified smart thermostat and receive a \$50 rebate and then join EnergySync for up to an additional \$75 in incentives.

EnergySync is as easy as 1, 2, 3.

Enroll your home’s eligible, smart thermostat through your device app or by visiting TID.org/DemandResponse for a complete list of eligible smart thermostats.

Once enrolled, you will receive \$50 for allowing TID to make small adjustments to your thermostat during a high energy demand event.

Receive an additional \$25 participation incentive at the end of the demand response season* for staying opted-in during called events.

*TID’s demand response season is May 1st – October 31st.

Enroll today – June 30 is the deadline to enroll in the 2026 season.

As of January 2026, TID rebates of \$300 or less will automatically be credited to your next monthly statement.

SPRING MEANS GREEN – TID'S SHADE TREE REBATE

In preparation for the warm months ahead, consider planting a shade tree. Planting a deciduous tree on the south, east, or west side of your home can help cool your home. In addition to helping reduce your cooling costs and beautifying your landscape, if you plant a qualifying shade tree, you can receive a rebate up to \$50 through the TID Shade Tree program.

Visit [TID.org/SpringTree](https://www.tid.org/SpringTree) for information on qualifying trees and program information.

Please remember to protect yourself and others and call 811 before you dig.

SAVE MONEY ON YOUR HOME IMPROVEMENTS

Spring into savings when you replace a home appliance with an eligible energy efficient appliance. TID offers a variety of rebates to improve your home's efficiency – saving you money and saving energy!

As of January 2026, TID rebates of \$300 or less will automatically be credited to your next monthly statement.

Find a list of TID's rebates at [TID.org/rebates](https://www.tid.org/rebates).

WE ARE HIRING!
